Coreboot drama

Coreboot is a software project aimed at replacing proprietary firmware

Malibal, a laptop vendor, published a blog post titled "Don't Support the Coreboot Project" -- https://www.malibal.com/features/dont-support-the-coreboot-project/

Coreboot's response -- https://blogs.coreboot.org/blog/2024/10/29/response-to-blog-post-from-malibal/

Removal of Russian Kernel driver maintainers

Patch to MAINTAINERS file, maintainers to some kernel drivers have been removed

Linus responds. "As to sending me a revert patch - please use whatever mush you call brains. I'm Finnish. Did you think I'd be *supporting* Russian aggression?"

tldr; sanctions and legal requirements
